JACKSONVILLE, ILLINOIS, FRIDAY MORNING, NOVEMBER 6, 1903.

NEW REPUBLIC OF PANAMA

MAKING EFFORTS TO PREVENT BLOODSHED

Attack on Colon Averted by the Withdrawal of Government Troops—Great Rejoicing on the Isthmus—Manifesto Issued

Panama, Nov. 5.—The government of the new republic of Panama is constantly receiving congratulations from Paris, London, republics of Central America and from nearly all other parts of the world. Up to the hour of filing this dispatch nothing definite had been decided in regard to Colon, where government troops, brought to that port by the cruiser Cartagena from Savanilla, are still encamped. The government of the republic of Panama is making all possible efforts to prevent bloodshed, but the correspondent of the Associated Press understands an ultimatum has been sent to Colonel Torres, commander of the government forces at Colon, announcing that it is the intention of the government of the republic of Panama, should Torres refuse to consider the generous proposals made to him to permit the embarkation of his troops on board a steamer and their transportation back to Savanilla, to send an army to attack Colon.

Telegraphic advices from interior provinces say there was great rejoicing when news of the declaration of independence became known. Government troops at Iteonome, sixty-five miles southwest of Panama, have joined the revolutionary movement and almost every moment telegrams are received from the most important men in the interior announcing adhesion to the new republic.

The revolution has been practically bloodless, as only two Chinamen were killed during the bombardment of the city by the government gunboat Bogota. The fire to the warship unroofed one house, a shell hit the tower of the cathedral and another fell on the house of Frederick Boyd, member of the revolutionary junta. Foreign consuls promptly sent a communication to the commander of the Bogota protesting against his action in opening fire on the city without giving proper notification of his intention to do so.

It was arranged yesterday the government troops should withdraw to the outskirts of the town and they did so during the night. This morning, however, Colonel Torres marched the troops to the center of the town, which caused the landing of American bluejackets this morning.

The Associated Press correspondent has just had an interview with Commander Hubbard of the Nashville, who said he had offered to re-embark the American force if the government troops would return to their camp on Monkey hill, where they passed the night. Torres, however, refused to return to Monkey hill, which is situated about a mile from Colon, saying the place was too unhealthy for the soldiers and that it was necessary for them to come to town. Commander Hubbard does not think the Colombian troops will venture to attack the bluejackets, who are barricaded behind piles of cotton in front of the bank and railroad building.

The commander of the Nashville has distributed about fifty rifles to private citizens who, with bluejackets, are guarding the barricades. Torres says he is determined to give battle to any troops coming to Colon from Panama.

A MANIFESTO.

Panama, Nov. 5.—The revolutionary junta has published a manifesto to the citizens of the republic of Panama, saying that the inhabitants of the isthmus had done what was inevitable in view of a situation which was becoming graver daily. The manifesto declares among other things that while Panama netted Colombia large sums of money, "not even the most infinitesimal part of the large sums collected had been applied toward benefiting Panama in any shape or form."

The failure of the Hay-Herran canal treaty to meet with the approval of congress at Bogotá is then touched upon. It is pointed out that only a few public men were opposed to the treaty and that their opposition was due to the fact that it was alleged Panama would be the only part of the country which would receive direct benefits by building of the interoceanic canal. The manifesto continues:

"The people of the isthmus," in view of this notorious situation, have decided to recover their sovereignty in order to work out their own destiny and to insure the future of Panama in a manner keeping with the evident destiny of the country, its vast territory and its riches. The initiators of the movement aspire to assist in this work and also to take part in the foundation of a republic where law shall be the unflinching guide of those who govern and those who are governed, where effective peace will be established, and in which all interest will join in the work of civilization and progress, which must result in perpetual stability.

"At the beginning of the life of this independent nation, we fully appreciate the responsibilities which the present state of affairs means, but we have profound faith in the good sense and patriotism of the isthmians, and we believe they possess sufficient energy to open the way for

their labor, to a happy future, without worry or danger.

"Separation of the isthmus from Colombia was accomplished without any feeling of hatred or any sentiment of joy. Just as a son withdraws from the paternal roof, the isthmian people, taking their chosen path, have separated themselves from Colombia. They did it with grief, but they complied with their supreme, inevitable duty, that of looking to their own future, attending to their own preservation and of working out their own welfare.

"We, therefore, now begin to form one of the free nations of the world. We consider Colombia as being a sister nation, with which we shall be in sympathy whenever circumstances may require it, and for whose prosperity we have the most fervent and sincere wishes."

ACCEPTED THE TERMS.

Panama, Nov. 5, 2 p. m.—General Tovar and staff, convinced of the uselessness of their resistance to the provisional government, have accepted the terms offered by the junta. They will embark this afternoon for Colon on an express train and will leave immediately on the Royal Mail steamer Orinoco for Cartagena. Arrangement to this end was made through the efforts of Commander Hubbard of the United States gunboat Nashville, Superintendent Shaller and Assistant Superintendent Prescott of the Panama railroad, who guarantee both parties will fulfill the agreement. There is great rejoicing all over the city because the stability of the republic now seems assured. The fact that troops were already moving toward the line probably decided Tovar to accept the terms of the junta.

SAILED.

Colon, Nov. 5, 7 p. m.—The Royal Mail steamer Orinoco with 23 officers and 435 men and 30 women has sailed. The United States auxiliary cruiser Dixie has just arrived.

ARE ANXIOUS.

Colon, Nov. 5.—Much anxiety prevails in all quarters here to day. It is recognized the crew of the Nashville would be quite inadequate to cope with the situation ashore should serious disturbances occur and arrival of the Dixie is anxiously awaited. The Nashville is now preparing to again land a detachment of bluejackets.

Gen. Pompello Gutierrez, one of Colombia's best generals, arrived here to day from Cartagena on board the Austrian steamer Jenny. This has intensified the situation immensely. Although Colon was perfectly quiet last night foreign residents here continue to seek refuge on board ships in the harbor or in buildings. The Panama railroad, which is an American concern, will be protected by forces of the United States.

FORMING ARMY.

Panama, Nov. 5.—Gen. Ho Jafferis, a graduate of West Point, has been appointed commander of the Pacific flotilla by the provisional government. Carlos Constantino Arosemena has been made assistant secretary of foreign relations. The provisional government has already organized a military division of Panama, commanded by General Diaz. The soldiers forming the division are accustomed to military service, having fought either with the government or liberal army during the last revolution.

SHIPBUILDING CASE

New York, Nov. 5.—In the hearing of the shipbuilding case to day cross-examination of Lewis Nixon was finished and re-direct examination was partly completed. The feature of to day's session was an attack made by Nixon upon William D. Guthrie, the counsel for defendants and representative of the Schwab interests, for his methods of cross-examination. Nixon presented a personal protest, in which he declared Guthrie in consultation with Max Pam, had adopted a line of questioning designed to place him in a false and discreditable position regarding the sale of his plant to the shipbuilding consolidation. The protest was angry and bitter in tone and intimidated that Guthrie had been unfair in asking him to answer from memory questions about finances of his company without opportunity to look up details, while Guthrie had the benefit of full investigation of the figures. By agreement of counsel the protest was stricken from the record.

Guthrie fiercely attacked various portions of Nixon's testimony and his course in handling the affairs of the company.

SAW CLAIMS VICTIM

Carlinville, Nov. 5.—While working around a saw mill at his farm about seven miles north of this city yesterday evening Stephen Carmody fell into a rapidly revolving circular saw, sustaining injuries from which it is believed he will die within the next day or so.

The saw penetrated the lower part of his back and it required thirty stitches by the surgeon to close the wound.

Several bones were sawed through and the surgeons have been with him almost constantly since the accident.

NORTHERN TEACHERS.

Joliet, Nov. 5.—The annual fall meeting of the Northern Illinois Teachers' Association began here this evening. Arrangements have been made to seat nearly 2,000 teachers. The exercises this evening consisted of a superintendent's meeting in the high school, presided over by State Superintendent Darrin.

THE STATE DEPARTMENT

ADVISED OF ESTABLISHMENT OF NEW REPUBLIC

Dispatch Comes From Consuls Constituting the New Government—Great Britain and Germany Will Not Interfere.

Washington, Nov. 5.—Formal announcement has been received at the state department by cable from Panama, of the establishment of a new government at that place, which, the dispatch states, is capable of maintaining order. The cablegrams come from three consuls constituting the new government and are signed by Frederick Boyd, Jose Augustin Arango and Thomas Arias.

The Associated Press is informed the president probably will make a statement to morrow regarding the provisional government of the republic of Panama. The decision to make an announcement to morrow was reached after a conference at the white house to night of the president, Secretaries Hay and Moody, Assistant Secretary Loomis, Rear Admiral Walker and Rear Admiral Taylor, chief of the bureau of navigation. The conference ended shortly after 11 o'clock.

The Associated Press is enabled to state this government will conduct affairs with a firm hand in execution of the treaty of 1846. Orders have been sent various naval commanders in the Caribbean that the isthmus is to be policed, transit kept open and bloodshed must be prevented at any cost. This is further than the United States ever has gone heretofore and in the opinion of officials here indicates the establishment of the new government at Panama, if it proves stable and orderly, will have the good wishes of the United States and our ultimate recognition and co-operation in conducting an orderly and permanent government. Advocates of construction of the canal say this assures the execution of that project.

LANDED MARINES.

The navy department received a cablegram from Commander Hubbard stating he had again landed forces from the Nashville to protect life and property in Colon.

WILL NOT INTERFERE.

Berlin, Nov. 5.—Germany, the Associated Press is advised, will observe complete indifference to the political side of the Panama revolution. The United States is recognized as the power having dominant interest on the isthmus. Germany has no inclination or object for the least interference and certainly would not do anything without knowing in advance that it would be agreeable to the United States.

London, Nov. 5.—British official attitude toward events in Panama is that it is entirely the United States' affair, which appears to be shared in all diplomatic quarters in London. The question of recognition of Panama's independence entirely depends on the action of the United States.

CHURCH EXTENSION

Kansas City, Nov. 5.—The general committee of church extension of the Methodist Episcopal church to day rejected the plan to consolidate the home mission and church extension benevolence. At the afternoon session making appropriations for aiding the building of churches during the coming year was begun. Among the appropriations made were the following: The first column showing the amount the conference must raise to entitle it to the loan set down in the second column:

Central Illinois	\$5,000	\$5,000
Central Missouri	300	300
Dakotas	1,000	2,000
Des Moines	3,000	1,800
Detroit	6,000	3,000
For general purposes:		
Contingent	\$ 10,000	
Emergencies	30,000	
Expenses of administration	25,000	
Preferred claims	115,000	

STRIKE SETTLED.

Chicago, Nov. 5.—The strike of cannery employed by large packing houses here was settled to day and the men return to work to morrow. Skilled men receive an advance of 7 per cent in wages and unskilled 6.

GATHERED UP REMAINS.

Marquette, Mich., Nov. 5.—Following a trivial family quarrel John Link, a well-to-do farmer, went into a field, seated himself on two sticks of dynamite and lit a fuse. A searching party to day gathered up his remains in a basket.

PROFESSOR MOMMSEN'S FUNERAL.

Berlin, Nov. 5.—The funeral of Professor MommSEN, historian, took place to day. Crown Prince Frederick William represented the emperor.

FIRE LOSSES.

Thorpe, Wis., Nov. 5.—Ballister Brothers' lumber yard, six miles south of Thorpe, containing several hundred thousand feet of lumber, was destroyed by fire to day this evening. The yard will be replaced.

WORDS OF PRAISE

President Speaks in Complimentary Terms of Services of Judge Shiras.

Washington, Nov. 5.—The president has accepted the resignation of Oliver P. Shiras, judge of the federal court of the northern district of Iowa, to take effect Nov. 1. In accepting the resignation President Roosevelt expressed himself in the following complimentary letter:

"It is with great regret that I accept your resignation. I cannot allow the occasion to pass without congratulating you upon the signal success which has marked your labors on the federal bench, and I trust the period of retirement upon which you are about to enter, and which you have earned so well, will be as full of satisfaction to you as the period of your service was full of usefulness to the nation."

Washington, Nov. 5.—Senators Allison, Aldrich, Spooner and Platt of Connecticut arrived to night and immediately went into conference in Allison's apartments at the Arlington. At the conclusion Allison said he believed the Cuban treaty would be made operative by joint resolution. He cited the method adopted by congress in relation to the Mexican treaty as a precedent.

The special committee appointed by the senate at the last session to prepare a financial bill to be submitted for consideration of congress has not prepared a draft of its ideas and Allison said to night he does not look for much financial legislation. However, the senate finance committee will meet to morrow and some definite program may be made.

AWARDED DAMAGES

Verdict Given Man Who Sued Chicago Board of Trade for Money Lost.

Bloomington, Nov. 5.—A jury in the circuit court to day gave Oscar E. Green, of Saybrook, a verdict for \$5,000 damages. He sued to recover money lost on the Chicago board of trade and an important precedent is established which may enable all future losers in this form of transactions to recover. The defense claimed there was a bona fide sale of grain, while the plaintiff argued only options were purchased.

SURRENDERED BY BONDSMEN.

St. Paul, Nov. 5.—Casper J. Ernest, capitalist and promoter, who has been out on bail of \$4,000 pending hearing on charges of embezzlement and forgery preferred by Father Metzler, Catholic priest of Chippewa Falls, Wis., was surrendered by his bondsmen to night. The action of the bondsmen is said to be due to sensational developments. Ernest is said to have received large sums from people throughout Minnesota, Wisconsin, and eastern states, to be invested for them at high rates of interest. Many of his clients were Catholic priests, who sent their private fortunes for investment. It is alleged the total amount of money so received was about \$200,000.

FOREIGN MISSIONARY SOCIETY.

Baltimore, Nov. 5.—The thirty-fourth annual session of the Foreign Missionary society of the M. E. church finally adjourned to day. It was decided to hold the next annual convention within the jurisdiction of the Des Moines branch. The board of managers elected are: Harriet B. Skidmore, Mary J. Anderson, Mary L. Denler, Annie R. Fracey, Ordella M. Hillman, Caroline Leaycraft, Mary A. Priest, Susan A. Sayers, Esther E. Baldwin, Sarah K. Cornell, Helen Emens, Anna W. Gibson, Elin J. Knowles, Louise H. North, Mary M. Quel, Jennie R. Spaeth, Fannie J. Sparks.

The society appropriated \$49,351 to carry out missionary work in all parts of the world.

LABOR TROUBLES

Denver, Nov. 5.—Governor Peabody and Commissioner of Labor Montgomery have practically given up hope of being able to avert a general strike of coal miners in the district which includes Colorado, New Mexico, Utah and Wyoming. A notice signed by John Mitchell has been posted at several mines ordering men to quit work Nov. 9.

Chicago, Nov. 5.—Eleven hundred leather workers employed by the American Hide and Leather company in its tanneries here struck to day to enforce demands for adjustment of working conditions.

CONVICTED AND SENTENCED.

St. Louis, Nov. 5.—Adolph Felm, former secretary of the Hoboken branch of the Jefferson club, a political organization, was to day convicted of aiding and abetting naturalization frauds and sentenced to five years in the penitentiary and fined \$1,000.

REPUBLICAN CAUCUS CALLED.

Washington, Nov. 5.—A call for a caucus of Republican members of the house was issued to day. The place is Saturday morning at 10 o'clock.

CHINAMEN ARE ENRAGED

BY RUSSIA'S PROCEEDINGS AT MUKDEN

The Act Considered an Insult to High Officials and the Government—Talk of Declaring War on Russia.

Pekin, Nov. 5.—Chinese are more enraged at Russian proceedings at Mukden than they have been by any events since the capture of Peking. Some members of the council have advised the dowager empress to declare war on Russia and send troops to release the Tartar general who is detained at Mukden, growing out of the decapitation of a Chinese bandit who had enlisted in the Russian service, but who fell into the hands of the Chinese after Russians evacuated Mukden. This action of Russia is considered not only an insult to high officials, but insulting to the Chinese government itself. Better informed officials, however, realize the helplessness of China and madness of an attempt to go to war with Russia. Their counsels have hitherto prevailed, though there is much baseless war talk in the native press and among younger Chinese officials.

WILL REDUCE PRICES

New York, Nov. 5.—At a meeting of leading steel and iron manufacturers of the country in this city arrangements have been practically concluded for a reduction in the price of billets amounting to \$4 a ton. This is generally considered the first step toward complete readjustment of prices of finished goods. In well informed quarters the decision is looked upon as an effort to stimulate business at home and abroad as well as to conform to pig iron market conditions.

THE CAPTURED INDIANS.

Cheyenne, Wyo., Nov. 5.—The request of Governor Chatterton on the federal government for return of nine Indians captured near Edgemont, S. D., has been complied with and the prisoners were turned over to Sheriff Dermott at Crawford. They will be charged with murdering Sheriff Miller and Deputy Falkenburg. This step followed a series of dispatches in which federal Indian authorities and state authorities clashed in regard to the question of right to deal with punishment of the redskins.

THE CARTHAGE JAIL

Salt Lake, Nov. 5.—Officials of the Mormon church say that the announcement of purchase of the old jail at Carthage, Ill., where Joseph Smith was put to death, is premature, although negotiations for its purchase are impending. The intentions of the leaders of the church are to preserve the old prison as a memorial building and probably to keep their mementos and relics of the prophet and of the struggles of the church in early days.

NEW BOWLING RECORD.

Chicago, Nov. 5.—A new bowling record was made to night in the tournament of the Monroe league when the Sunsets made a score of 1,119. Thirty strikes and sixteen spares were marked in the game. The team played the usual three games and averaged 342.3. The performance is a world's record under the new rules of the American bowling congress. The previous record was 1,106.

APPOINTMENTS.

Washington, Nov. 5.—The president to day appointed Daniel Thew Wright, of Cincinnati, justice of the supreme court of the District of Columbia, vice Hagner, resigned. He also reappointed James A. Gill on the supreme bench of the Indian territory.

MRS. HENDRICKS' FUNERAL.

Indianapolis, Nov. 5.—The funeral of Mrs. Eliza V. C. Hendricks, widow of the late Vice President Hendricks, was held this afternoon. Among floral offerings was a large bunch of American roses from Former President Cleveland.

WILL RESIGN.

London, Nov. 5.—William O'Brien, Irish Nationalist, has decided to resign his seat in parliament and as member of the governing body of the United Irish league.

DEATHS.

Darlington, Wis., Nov. 5.—Capt. S. W. Osborne, aged 52, more than fifty years a resident of this city, is dead. He was a veteran of the civil war.

SUGAR REDUCED.

New York, Nov. 5.—All grades of refined sugar were reduced 5 cents a hundred to day.

BUILDING COLLAPSED.

Maiden, Nov. 5.—During a meeting of a scientific society at Maiden, province of Massachusetts, a building collapsed, killing three persons and wounding several others.

EMPEROR AND CZAR

The Rulers of Germany and Russia Have Affectionate Meeting

Egelsbach, Nov. 5.—Emperor William arrived here at midday from Wiesbaden and was cordially received at the railroad station by the czar, grand duke of Hesse and Prince Henry of Prussia. Their majesties kissed each other on both cheeks, then drove to Wolf garten, where they lunched together.

St. Petersburg, Nov. 5.—The meeting of the czar and Emperor William at Wiesbaden yesterday is commented on by newspapers here as being a fresh pledge of preservation of universal peace.

FOR POISONING HIS WIFE.

Charleston, Ill., Nov. 5.—A sensational arrest was made here to day when Sheriff Baird placed in jail William K. Honn, son of one of the best known and wealthiest families in Coles county. His bond was fixed at \$7,000 and his trial set for next week by Judge Thompson. Honn was indicted by the grand jury which adjourned yesterday, and is charged with murdering his wife by administering poison. The young man's troubles began last January, when he was brought to this city by a constable and the father of Miss Mahala Galbreath and forced into a midnight marriage. Young Honn and Miss Galbreath had been playmates from youth. Both families are well connected and widely known.

The young couple made their home in this city. In a few weeks the wife died suddenly and under circumstances that excited much neighborhood gossip at the time. Honn returned to the home of his parents and the story of his wife's death was forgotten by the public, but the grand jury got hold of the affair and found a "true bill" against him.

PROTECTION FROM FLOODS.

Omaha, Nov. 5.—With the object of exerting organized efforts to induce the national government to permanently protect cities, towns and lands from floods of the Missouri river, fifty delegates from Nebraska, Missouri, Iowa and South Dakota met in Omaha to day. The session was spent listening to papers and speeches and making preparations for a permanent organization.

BANK FAILURE

Cripple Creek, Colo., Nov. 5.—The Bi-metallic bank of Cripple Creek failed to open its doors to day. The bi-metallic is a state bank, capitalized at \$100,000. Its deposits are about \$220,000. The cause of the failure is said to result from heavy decline in mining stocks and real estate.

Pueblo, Colo., Nov. 5.—The receiver of the Pueblo Title and Trust company, which assigned yesterday, stated to day the company is perfectly solvent and can pay all demands within thirty days.

CONFESSED TO MURDER

Springfield, Nov. 5.—Mrs. Mary Terry, arrested as an accessory of her husband in the murder of Leone Granberry, the colored girl found dead Tuesday morning, to night confessed she murdered the girl. She states she met the girl near the livery barn where her husband was employed, that a fight ensued, that she wrested a pop bottle which the Granberry girl was carrying from her and struck the girl on the head and then stamped on the girl's head.

APPEALS REJECTED.

Paris, Nov. 5.—The court of cassation to day rejected the appeals of the Humbert family who, Aug. 22 last, were sentenced to terms of imprisonment varying from two to five years, on charge of fraud in connection with the so-called Croix de millions.

DEAD BODY OF WOMAN FOUND.

Oklahoma City, Nov. 5.—The dead body of a woman was found in hotel here to day. Documents found show that she was married at Belleville, Ill., to Dr. J. M. McComas, of Elk City, O. T.

WAG TO ENCOURAGE MATRIMONY.

Mayor Charles W. Kempe of Akron, O., recently made a new ruling on intoxication cases in police courts. The usual fine for plain drunks has always been \$2 and costs. The mayor has made the rule that single men shall pay the sum, but married men who get under the influence shall be let off with \$1 and costs. J. Y. Anthony of Youngstown was one of the prisoners the other day and when informed of the rule remarked:

"It's only once in a while a man gets drunk and so can afford to pay the fine. But when a married man gets under the influence he has to pay the fine and costs. I don't know how the law is."

THE MONSTER ARSON.

Dodge, Wis., Nov. 5.—The monster arson case here concerning yesterday's burning of the lumber company at Dodge, Wis., which it completely destroyed, burning all lumber piles and tankage, and spreading to houses of the village, today enveloped the entire town. Communication with Dodge was broken by burning of both telephone and telegraph wires.

THE POSITION OF CANADA

DISCUSSED BY EX-POSTMASTER SMITH

Have Nothing to Fear of Chamberlain's Policy if We Keep Rightful Trade Weapons in Our Hands.

Fitchburg, Mass., Nov. 5.—Former Postmaster General Charles Emory Smith was a speaker at the banquet of the Fitchburg Merchants' association to night. He spoke especially of Canada's position in her relations with Great Britain and America. He said Chamberlain's policy may have serious concern for us, but, he said, "if we keep our rightful trade weapons in our hands we need not fear the issue."

He asked: "Will Canada be content to sacrifice her own interests for the interests of English manufacturers? Will she consent to renounce her own right of independent action for the sake of empty imperial connection?" Speaking of annexation of Canada, he said: "We do not seek it, but if the two countries ever come together it will be with free and full consent by the natural law of gravitation."

Concluding, he said: "We have drawn a circle around America and made the Monroe doctrine its dominant law. No extension of European power within that circle will be allowed. It is but a deduction of that doctrine that no European war shall be suffered to wage itself within the American realm. Herein lies the true safeguard of Canada in consulting and protecting her own independent interests free from imperial restraints and burdens, and it will be wise and well for her to understand and appreciate the broad American spirit."

GOLDEN EAGLE

Rare Specimen Shot by Richard Lake.

Possibly one of the finest specimens in the eagle family ever seen in this city was brought in Thursday by Richard Lake, who resides six and one-half miles northwest of the city. He killed the bird Wednesday night about 10 o'clock while it was roosting in a tree about sixty feet from the ground. During the day Mr. Lake had noticed the bird flying about the place and toward evening it flew into a nearby woods. He took his gun that night and managed to find the bird's roosting place and stealing up as near as possible he fired a load of No. 3 shot into it. This hardly moved the bird and another load of shot was sent into him. The eagle dropped to the limb below, but straightened up again, making ready as if to fly. When Mr. Lake put the third load of shot into him and he fell to the ground. This specimen is known as the golden eagle, taking its name from the fact that the head and back of its neck are covered with short, pointed feathers of a golden red color. In this species are found the largest eagles known, their habitation for the most part being in Europe, although many of them are found in the Rocky mountains in America. The eagle killed by Mr. Lake measured seven feet and two inches from tip of tip of wing and was three feet in length. The weight of the bird was ten and a quarter pounds. The golden eagle is now a rare bird, the species being almost extinct. Even in the highlands of Scotland, where at one time there were many, only a few remain to day on the native Scotchmen hold these remaining few as almost sacred.

The bird which Mr. Lake killed must have wandered away from its native haunts, for seldom is the golden eagle found away from the immediate vicinity of the Rocky mountains. The eagle was taken to Anderson's undertaking rooms to be embalmed and Truman P. Carter will mount the specimen for A. M. Masters.

TO ACCOMMODATE SHIPPERS

Superintendent Ryder of the Alton has been in East St. Louis this week, where he and Trainmaster G. M. French of the Big Four and officers of the Illinois Terminal and Bluff line held a conference relative to establishing joint service on the levee tracks for the accommodation of shippers. The new arrangement will be more expensive for the railroads, it is said, but will be more convenient for shippers and it is hoped that the troubles there, which have been frequent, will be ended.

Ashland, Wis., Nov. 5.—Bibb, a village on the Omaha road, twenty miles south of here, was destroyed by fire to night. Engines were sent from Ashland on a special train. The fire started in a mill of the Chicago Canal and Lumber company, which it completely destroyed, burning all lumber piles and tankage, and spreading to houses of the village, today enveloped the entire town. Communication with Ashland was broken by burning of both telephone and telegraph wires.

CITY COUNCIL

A Harmonious Meeting and Considerable Business Transacted With Little Friction

The council met Thursday night with all members present and all on their good behavior. There was a great deal of business to be transacted and it was undertaken with a business spirit and dispatched properly. The new railroad was granted the right of way over all streets and alleys from the north limits to the Wabash right of way. A settlement of the Brady claim was adopted, a park commission ordinance passed with an emergency clause and the measure to disconnect Oak Lawn Retreat and some other property from the city was lost.

THE PROCEEDINGS.

The council met in regular session Thursday night, with all present; Mayor J. R. Davis in the chair.

After the reading of the minutes Miss Blunt and Miss Lane appeared before the council by courtesy to present the matter of a city matron. Miss Blunt called attention to the fact that she had done all she could for the betterment of the city and presented an appeal ordered by the directors of the Rescue home. The desire was for the city to defray the salary, \$40 a month, of this person. The lady was heard respectfully as she read the following:

Jacksonville, Nov. 5.—To the Mayor and City Council of Jacksonville.—Honored Sirs: This week at the meeting of the board of the Rescue home of this city it was removed from Jacksonville to Springfield and to be auxiliary to that rescue home, sending such erring women and girls from this city there who desire or can be persuaded to leave the life of sin for the path of virtue.

A city matron must be appointed to look not only after the erring girls, but also to do general work for women in distress and need—in fact, to be the woman of the city to whom the police and city authorities can call upon in emergency—do all such service which only a woman can render toward establishing the best morals.

You are a council of men chosen by the city to look after its best interests and to wisely disburse such funds as are committed to you toward this end in view. We think of you as conscientious, honest, God-fearing men and that as fathers and husbands you will see the wisdom of the request we now make—namely, that the city meet the salary of this city matron to the amount of \$40 a month. All expense of matron accompanying these girls to Springfield, rent of rooms, etc., will be met by subscription. As this is for the good of the city, we believe and expect you to co-operate with this movement. Next week or the week later there will be meeting of these women, representative women of the city, to select and appoint this city matron. At that time we wish the mayor and other city officers who can be present to come and take part in the services, as we wish you to so heartily do this part assigned that we shall with spirit of co-operation present her formally then or at a meeting Sunday afternoon two weeks from Sunday. The time of the meeting will be made known later. Trusting a favorable answer, I remain your obedient servant,

Oliver M. Blunt, Chairman of Committee and Future Meeting.

She announced a meeting a week from Sunday, to which all were invited.

Miss Lane, who has had charge of the home, announced the intended removal of the home to Springfield, which would be a saving. They reported good work done in rescuing girls who would otherwise be charges on the county. The place of matron had been assigned to a very capable Jacksonville lady and the hope was that the city would appropriate the desired salary.

Ald. Moore moved the appointment of a committee of three to investigate.

Ald. Ticknor spoke in favor. The mayor thought a police matron of the right kind would be a good thing. He thought there was a state law requiring such an official in places of this size. He had been told that the Rescue home had done good work. There were frequently female prisoners and others who needed the attentions of a woman.

Ald. Vaughn favored it. The mayor appointed Alds. Moore, Hildroth and Doolin.

Petition from residents on South East street not to change or lower sidewalks to level of street curbing. Referred to highway committee.

Petition for electric lights, one Lincoln and Morton avenues and Morton avenue and Gladstone street.

Ald. Moore spoke in favor. The mayor called attention to the fact that a hundred petitions were in now and but forty new lights possible. It was not right to vote to grant the petitions and not put up the lights.

Ald. Goveia thought it best to refer to the light committee.

Ald. Moore insisted on the motion and it prevailed.

Petition for lights, East Wolcott street, corner of Ashland avenue and Allen avenue.

Ald. McGinnis said the lights were important and moved they be granted. Granted.

A communication from people on East College avenue called attention to the prevalence of typhoid fever on that street and during the day.

STEPPED AGAINST A HOT STOVE.

A child of Mrs. George T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying the balm the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Kellars, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by all druggists.

A BOOK ON FINANCE.

In view of the probable consideration of the question of financial legislation by congress special interest will attach to Mr. Wilbur Aldrich's new book, "Money and Credit," published by the Grafton Press. This is a work dealing with the principles and history of money and showing the development of the rise and the nature of credit. The laws of the subject are deduced from their historical sources, one by one, in order to establish clearly their truth, and the whole is done with terseness and incisiveness. For the student, the man of affairs, the banker and the legislator, as well as for the average reader who desires to gain a knowledge of the underlying principles of banking and subjects allied thereto, "Money and Credit" is one of the best works thus far published. SURPRISE PARTY.

A pleasant surprise party was given last night at the home of Mr. and Mrs. S. E. Snow, 717 East State street, in honor of their first wedding anniversary. The event was planned by Misses Ethel Craig, Inez and Minnie Huckleby, and proved especially enjoyable. Music and games were included in the amusement program and excellent refreshments were served. Those present were Mrs. Huckleby, Misses Inez and Minnie Huckleby, Ethel Craig, Katherine Cole, Edna Stout, Elizabeth Harker, Mrs. Charles Hackett, Mr. and Mrs. Fred Hulse and daughter, Mr. and Mrs. T. C. Rogerson and daughter and E. L. Whitlock.

A NOTORIOUS CRIMINAL.

In Sweden there is a man named Loefdahl who is said to be in one respect the most notorious criminal on record. He has been charged with no less than 1,807 different crimes. He began his career as a forger and did not stop until he had forged 1,800 documents. Then he decided to make money by setting houses on fire, and he had burned seven dwellings before he was caught. Most of the documents which he forged were receipts for salaries of railroad employees, and for every house which he burned he obtained the full value from an insurance company.

It is estimated that if the full penalty of the law were to be imposed for each offense Loefdahl would have to spend several centuries in prison.

Richard's Title.

The use of titles is becoming more and more common in the transaction of corporation business, says the Electrical Review. One man of affairs had this brought to his notice the other day in an unusual manner.

He found on his desk a memorandum that a certain man had called to see him and had left word that he would return later. The information was signed, "Richard Emerson, O. B."

"Who is Richard Emerson?" asked the gentleman of his clerk.

"Richard Emerson? Richard—why, it's Dick!"

"And what does 'O. B.' stand for?"

"Office boy."

WATER TIGHT BULKHEADS.

New Safety Can Be Obtained by Sub-division of Sailing Ships.

Again and again we hear of collisions in which one or both of the unfortunate ships suffer such injuries that they go to the bottom. At the present state of nautical knowledge, with the full understanding of the value of strong transverse bulkheads in restricting loss of buoyancy to relatively small compartments under external injury, it seems regrettable that so little is done by shipbuilders and shipowners in the absence of any regulations by the government or at least by the underwriters.

Particularly lacking is such bulkhead protection in our numerous coasting sailing ships, of which the Jennie Dubois, sunk only a few days ago by collision off Block Island, was a modern example. The same might be said of ferries, river and bay steamers and even the largest part of our coastwise steamships. With the steadily increasing speed of ships the question of safe subdivision becomes a more and more pressing one. So far only the German government, or, rather, a body clad with authority by the government, the Seeverkehrsministerium, in conjunction with the Germanischer Lloyd, has issued very effective regulations, and it would be no more than humane to the English speaking maritime population if similar regulations for safe subdivision of ships by the leading classification rules or by the authorities could be framed.

It might be stated that for average cases at least four or five strong bulkheads are needed to keep the ship afloat with one compartment filled. If it is desired to provide safety against the emergency of two flooded compartments, possibly by injury in the line of the bulkhead, then at least nine or ten bulkheads are needed to establish such safety. Passenger ships with little cargo capacity should always be fitted thus, while cargo vessels may safely get along with the first mentioned arrangement. But no ship should have less than this number of bulkheads. The objection that the loading of a ship is unnecessarily handicapped can be readily overcome by fitting more and larger hatches alone. From considerations of more rapidity in loading, of more trips, of more money earned, are these more numerous and larger hatches desirable, and if greater safety can be obtained without drawback it is well worthy the earnest consideration of all men interested in the maritime welfare of the country.—Nautical Gazette.

Daring Stunts of a Steeple Jack.

William Ramsauer, "Steeple Jack," entertained the crowds which thronged the downtown streets during the noon hour the other day by doing a disarming and an acrobatic stunt on the top of the flagpole of the Traction building.

After he had climbed to the top of the stout iron flagstaff, 377 feet above the street, he calmly seated himself on the ball and proceeded to take off his outer clothing until he stood revealed in a suit of light-colored trousers. Then for the amusement of the populace he performed feats of daring for nearly an hour. With the stars and stripes fluttering beneath him he stood on his head on the polished surface of the brass ball, forty feet above the roof of the Traction building and 377 feet above the people to whom from the street below he looked like a mere speck outlined against the heaven.—Cincinnati Enquirer.

A Fish Story.

I send you the following true story as somewhat unique:

Louis H. Nautman, D. McMahon and I were fishing for bass on Little Sebago lake. One of the party caught a horned pout, or bullhead, and I dressed it, taking out the meat of the fish from the neck joint back, leaving head, entrails and skin in one piece. I threw it overboard in about ten feet of water. Some ten minutes later Mr. Nautman felt something on his hook, and, pulling in, he found he had caught the same part of the bullhead I had thrown overboard. The head had bitten the worms the second time. This seems to me to be a strange thing, but all three will swear to the truth of this at any time.

This of course means that the hook was in the fish's mouth just the same as in the first instance.—Maine Woods.

Gun Headache.

The sufferer from gun headache is now beginning to endure its annual pangs and may be grateful for being reminded of a means by which they may be diminished. It is no new thing and has been in vogue in the navy and with those who are brought into the neighborhood of big gun firing for many years as a method of lessening the effect of the vibration. It is to hold a piece of india rubber between the teeth at the moment of firing. The vibration and jar are received in some measure by the contractile india rubber instead of being communicated with unbroken force from the lower to the upper jaw, and many people who suffer from gun headache have found that this simple device is a great help to them.—Country Life.

Alaska as a Territory.

Alaska is divided by nature and by lack of transportation facilities into three sections—southeast Alaska, central and northwestern. Owing to the present lack of communication and transportation between the different sections of Alaska a territorial organization could be formed and maintained only by considerable difficulty and at great expense. For that reason many citizens of the district are by no means enthusiastic over the idea, and yet it will probably be realized in the not far distant future. Minnesota Journal.

C. R. I. & P. ROAD MAY ENTER CITY

REPRESENTATIVE OF SYSTEM HERE THURSDAY

Object is to Connect With Coal Fields Recently Purchased in Southern Illinois—Line May be Run From Keokuk Here.

Another railroad for Jacksonville is not only one of the possibilities of the future, but from rumors afloat Thursday one of the probabilities.

A representative of the Chicago, Rock Island & Pacific railroad was in the city yesterday and made arrangements with a local liverman for two teams which he expects to use in driving around the territory contiguous to Jacksonville relative to a study of the topography of the country. He left the city in the afternoon, but stated he would return next week for the purpose above mentioned. The Rock Island line has recently purchased extensive coal fields in southern Illinois and the problem that has confronted this particular road since the purchase has been a means of access to the fields.

The Rock Island has an extensive system through Iowa, Nebraska, the Dakotas and northern Illinois. The nearest point on the system to these coal fields, however, is Keokuk, as the line running into St. Louis connects with western points rather than northern. The objective point therefore is from Keokuk south.

The object of studying the local territory is with reference to a right of way and while a direct line drawn from Keokuk to the southern Illinois coal fields would run southwest of Jacksonville, the topography of Pike county is such that it is not at all likely that any railroad that could avoid it would take upon themselves the difficult task of leveling the hills of that country, as the expense would be something enormous. A line drawn from Keokuk to Jacksonville would run through the counties of Hancock, west part of Adams, extreme north-eastern portion of Pike, middle section of Brown and northwestern part of Morgan.

The road would have to cross the Illinois river and if it crossed above Mercedosa it is quite likely that the southwestern portion of Cass county would be entered and the route to Jacksonville would then angle south to this city. The only towns of any size through this stretch of country are Augusta, Clayton and Mt. Sterling; Chambersburg, an inland town in Pike county would doubtless be touched and a railroad for that village would make it a business center of considerable importance to the surrounding country.

Things never come singly and it is more than likely that two new lines may be added to the already excellent railroad facilities of the city ere many months.

A CLOSE STRUGGLE

St. Louis University and Illinois College Foot Ball Teams Met—Score 6-0 for Visitors.

Illinois college was defeated by the St. Louis university Thursday afternoon at the West Side park by a score of 6 to 0, in which the score by no means tells the tale. The game was the most closely contested of the season and the Illinois boys, though defeated, deserve nothing but praise.

The St. Louis line was fully ten pounds heavier than the Illinois and yet Ducksels, Conover and Eilers had no trouble in breaking through the St. Louis line, blocking their kicks a number of times. The score should have been 0 to 0, as the score was made on a rank decision by the St. Louis referee. The visitors had advanced the ball to the seven yard line and on the next play did not gain; on the next the line piled up and the man with the ball attempted to go around the end. Eilers tackled him for considerable loss, but Referee Dillon brought the ball back to where the teams had piled up; this gave St. Louis only one foot to gain for their distance. On the next play St. Louis barely made the foot. The ball would clearly have been Illinois had the umpire's decision been fair. The visitors were caught slugging repeatedly and Owen, Illinois' star half back, was hit a number of times. The crowd loudly denounced this work. In the second half neither side scored and the play was entirely in St. Louis' territory. The game was virtually a victory for Illinois, as the ball was in St. Louis' territory most of the time and the St. Louis team has all the advantage of a large city and a paid coach. The game:

FIRST HALF.

Illinois won the toss and chose the west goal. St. Louis kicked off to Illinois' ten-yard line and Owen advanced the ball twenty yards. Tontz circled right end for seven yards. Owen tried left tackle for five yards and R. Harmon hit center for five. Illinois was tackled for a loss and tried a fake kick, which failed and St. Louis held the ball on their twenty-five yard line. St. Louis made seven yards around right end and by small gains mainly between tackle and end advanced the ball to Illinois' six yard line, where Illinois held for downs. Brown punted to the thirty yard mark. Peckham, of St. Louis, fumbled it and Brockhouse obtained it and advanced it ten yards. Owen made eight yards through right tackle; Brown fell back and punted to St. Louis' fifteen yard line. St. Louis could not gain and punted to the fifty yard line and Brown advanced it five yards. Illinois fumbled and Ducksels fell upon the ball for a eight yard gain. Harmon ploughed through center for three yards. Owen went through tackle for three yards and Owen made eight more, but Illinois was penalized and could not make the distance. It was St. Louis' ball on the thirty yard mark and they kicked. Ducksels broke through and blocked it, but a St. Louis man fell on the ball. William Harmon broke through on the next play and downed the visitors for a loss of twenty yards. St. Louis kicked, but obtained the ball again. On the first two plays they did not gain and on the third made fifteen yards around right end. The next Eilers tackled the visitors for a two yard loss. St. Louis carried the ball to the six yard line despite the stubborn efforts of the Illinois men. From there by a very questionable decision by Referee Dillon made their distance to one yard of the goal and a straight buck by Bennett carried it over. Caldwell kicked goal; score, St. Louis 6, Illinois 0.

Illinois kicked to St. Louis and they immediately returned the kick. Brown caught the ball and advanced it six yards to the center of the field. Owen made a splendid run around left end of twenty-five yards. Illinois fumbled and the ball belonged to St. Louis on the thirty yard mark. The visitors tried to punt twice, but each time it was blocked for a loss on the third trial they punted to the fifty yard line. Illinois kicked to thirty yard line and St. Louis tried to return it, but it was blocked by Ducksels. Time was called on St. Louis' twenty yard line in Illinois' possession.

SECOND HALF.

Illinois kicked off to St. Louis' ten yard line and they advanced the ball twelve yards. They advanced it five yards and lost the ball on a fumble and it was Illinois' on the fifty yard mark. The locals advanced it several yards and kicked to St. Louis' three yard line. The visitors carried the ball twenty yards and punted to the forty-five yard mark. R. Harmon left tackle for twenty yards, Brockhouse three yards and Harmon made three more. On the next play St. Louis broke through and downed Owen for a loss and Illinois was forced to kick. St. Louis captured the ball on their fifteen yard mark and Bennett made twenty-five yards around left end after a few gains were forced to kick. Brown caught it and returned it fifteen yards. Owen circled the end for ten yards. R. Harmon hit the line for twelve yards. Brown attempted a drop kick which fell short. St. Louis fumbled and Owen obtained it on the thirteen yard line. Harmon made three yards through center, but St. Louis held on the seven yard mark. The visitors kicked a field goal and returned it to the center line. Time called. Score, Illinois 6, St. Louis 0.

COMMENTS.

Manager Wylder—I am perfectly satisfied. Our boys easily outplayed the visitors.

Ducksels, Conover and Eilers played a splendid defensive game.

Owen and R. Harmon were Illinois' best ground gainers.

Brown is to be congratulated on the fine manner in which he handled the visitors' punts. Brockhouse also deserves credit for the way he managed the team.

The College Rooters' club was very much in evidence. The spirit is to be commended and it is hoped the club will turn out on all occasions.

CITY COUNCIL

(Continued from Third Page.)

was cess pools on East State street and drainage in some parts.

Ald. Cobb spoke on the subject confirming the statement and said there should be a sewer on East State street east of the C. & A. track.

Ald. Vaught moved it be referred to the health warden and sanitary committee to investigate and report.

Ald. Kennedy said this has been done before and nothing done. The city might have to pay damages through delay. The health warden had reported on the trouble.

The mayor said there had been fever on that street, but he was not sure as to the cause. He had sent the health warden to look into the matter. The city had bought the right to run water from East State street to College avenue. Two cess pools supposed to run down this way did not do so. It was not certain that the statement was right. It was possible some other cause obtained. He had been down there and seen the trouble from the people themselves. There should be a sewer on a part of East State street, but there is a natural water way through the property of Mr. Scott. The city should pay part and the people part. There had been a movement to put down a 24-inch tile, but it cost too much to be considered. The matter of expense should be compromised. The health warden might not give the same report if he were present as had been credited to him. The state chemist would condemn many of the wells in the city. Some effort for relief should be made.

Ald. Hildreth asked if some immediate relief could not be given.

Mr. Scott was present. He said he had three children sick and several of his neighbors the same. Whatever the cause the fact of a nuisance remains. They are cess pools opening into ditches and contaminating wells and all else. A great amount of water is diverted from East State street from four cess pools, which should be abated. They empty into the ditch and with a rain the material flows down and pollutes the water all along the way. He had been unable to cultivate his garden on this account. If the ditch were opened it might give some relief.

The mayor said there was once a man who had two cess pools declared he had them properly cleaned and disinfected.

Mr. Scott said he was sure the state would help owing to the Institution for the Blind. He was not in favor of the ditch suggested by the mayor.

Ald. Babb thought the matter should be attended to.

Ald. Vaught again urged reference to the health warden and the sanitary committee.

Ald. McGinnis said money spent this way was the best form of expense.

Referred to the health warden and sanitary committee.

The city attorney presented the case of Olive E. Brady.

Jacksonville, Nov. 5.—To the City Council of the City of Jacksonville.—Gentlemen: As city attorney I desire to place before you the status of the case of Olive E. Brady vs. the city of Jacksonville.

As you are all probably aware, there was a trial had at the May term of the circuit court, in which the jury rendered a verdict against the city for \$2,500. On motion for a new trial, which was argued at length, the presiding judge recommended that a remittitur of \$1,000 be entered, and upon the entering of such remittitur that judgment would be rendered upon the verdict for \$1,500. A remittitur was entered by Miss Brady's attorneys and judgment was rendered against the city for the sum of \$1,500.

Since that time there has been considerable negotiation looking toward the settlement of this case without further litigation. If the case should go to the appellate court the expense in getting up the record, having abstract and brief printed and the advance docket fees, etc., would amount to approximately \$150. If the case should be affirmed in the higher courts the city would then have to pay the \$1,500 with 5 per cent interest thereon from the day of judgment, together with all costs, and if the case should be reversed it would simply mean another trial in the court below, and of course no one could tell what the outcome of the second trial would be.

Through the negotiations which have been pending we are now in a position to get the judgment satisfied by the payment to Miss Brady of \$800. After a careful and very exhaustive investigation of the whole matter and a thorough consideration of the possibilities of the future of this case, I am of the opinion that it would be the safer and more conservative plan for the city to pay the \$800 at this stage of the proceedings, rather than take chances on further litigation.

I therefore recommend that the case be settled on this basis, and if the council concur in this recommendation, that it direct the honorable mayor and myself to make such settlement. Respectfully submitted, W. M. Morrissey, City Attorney.

Ald. Vaught moved the recommendation be concurred in.

Ald. Kennedy thought the contractor was liable for damages and didn't understand it. He had heard that the city engineer had the right to put up a wire across the street if he chose. He asked for the reading of the specifications.

The mayor said the suit was against the city and it had to respond.

Ald. Vaught asked if the city might not come back on the contractor and was told it might. He said the question of Mr. Kennedy was not in order at the present time. The matter of Mr. Cherry's liability would come later.

Ald. Vaught said the best thing was to settle on the basis offered and then see about the other persons later on.

Ald. Kennedy wanted to know why the matter had not been brought before the council long before. This was the first time he had heard of it and was told that the suit had been brought the year before and measures had been taken for settlement, but were not successful.

The clerk read the contract with Mr. Cherry and the question of that gentleman's liability was discussed. Ald. Vaught thought him responsible, but felt the thing now to do was to settle.

The motion was put and carried, Ald. Kennedy and one other voting no.

The electric light equipment and South Kosciusko street sewer were accepted.

Ald. McGinnis brought up the condition of East Independence avenue at the end of the street, where work was much needed, and moved it be referred to the highway committee.

The light committee reported favorably on a light at the corner of Vorhees and Walnut streets. Adopted.

The railroad ordinance was again brought up with amendments requested by the council at the special meeting Monday.

The streets from Independence avenue to the Wabash right of way had been added since the last meeting.

Ald. Vaught—At the last meeting I favored delay until we could look into the matter and we could go over the ground. We did right and now know how to act. There is no disposition to hamper the road, but we must protect the city. We asked for certain amendments, as there was probably no intention to build south of Independence avenue, and so the streets were left, but I learn they have been inserted, and so without these streets I take pleasure in moving the adoption of the ordinance.

Ald. Kennedy seconded.

Ald. Goveia said he would like to grant the road the ordinance as read, for it deserves it. He would like to allow them all the way to State street and so moved.

Ald. Cobb seconded.

Mr. Crane—I consulted with the authorities of the road regarding this matter and the decision was that the business of the road would likely be so heavy that it could not be handled on the one track, which would make it necessary to use the company's own tracks up to the Wabash right of way. It is not asked to use these streets, only to cross them. We are likely to have more business than we have now and shall need all this territory.

Ald. Vaught—I am willing to grant this if they will agree to use the streets within five years and will agree so to vote.

Ald. Hildreth—What difference does it make? We were tickled when the road first talked of coming here and now there is an effort to hamper them.

Ald. Ticknor—I favor the ordinance.

Ald. Kennedy—Regarding Hackett avenue, there must be some misrepresentation. We were told there would be a cut beyond and there is a grade instead and instead of nine feet Hackett avenue will have nearer nineteen.

Mr. Crane—You can depend on what the engineer said.

The question on the amendment of Ald. Vaught to leave out the streets south of Independence avenue was called up. He said he would agree, however, to vote for the ordinance as a whole providing the streets were all built over within five years.

Ald. Goveia said if the proposition to come in on conditions of this ordinance had been made it would have been granted in a hurry, but now they are in we are holding them back. Their request is fair.

Ald. Kennedy—These people do not agree to use this territory right away. They claim they have a fifty-year contract with the C. P. & St. L. and we have no right to grant them this right.

Ald. Johnson—The road has bought the property south of Independence avenue and there certainly can be no objection to granting this request.

Ald. Babb—The crossings south of Independence avenue may be troublesome or dangerous and we want to know if they will be guarded by the road.

Mr. Crane—You always have the right. We have no contract with the C. P. & St. L., but expect to get it.

Ald. Moore favored the ordinance as it read.

Ald. Kennedy wanted to know why the use of these streets could not be granted when needed.

Ald. Cobb said the road should have asked a bonus of \$25,000 and then there would have been no trouble.

The amendment of Ald. Vaught was lost, 9 to 3. The ordinance was adopted as read unanimously.

Mr. Crane thanked the council. He said he was sure it was a wise movement, for the C. B. & Q. was a great system and it would be a big argument for the location of factories. The American Radiator company would probably be located at Litchfield on this account.

Asked if it could be brought here, he said the Business Men's association might get it here, but the trouble now was lack of water.

Ald. Kennedy—There is so much water they are talking of shutting up lots of wells.

The bond of Policeman Brainer was offered and accepted.

Ald. Higgins, chairman of the committee on ordinances, offered an ordinance providing for a park commission.

Ald. Moore moved the adoption of the emergency clause.

Ald. Babb moved an amendment that the members of the commission be citizens of Jacksonville. Carried.

The emergency clause was unanimously adopted and so was the ordinance.

Ald. Doolin called attention to the bad condition of the Wabash and North Main street crossing and moved the mayor be ordered to notify the road to fix the crossing.

Ald. Babb said the road should not be allowed to block the street crossings so long.

Several aldermen agreed.

The mayor said three minutes was enough.

Ald. McGinnis said he was coming along

when a train was blocking a street too long and he asked the trainmen why it was and they said: "Who in — are you?"

Ald. Doolin's motion prevailed.

He moved the chief of police be instructed to notify the trainmen not to blockade a street crossing more than ten minutes. Carried.

Ald. Doolin called attention to the bad condition of the street and ground just south of the Wabash freight depot. It was scandalous and should have attention. He moved the attorney be instructed to look into the title and report. Carried.

The city clerk asked the council to buy for the city offices an adding machine to cost \$300. Carried.

Ald. McGinnis called attention to the walk on North East street between Court and North streets. It was very bad.

Ald. Babb thought a concrete walk would be a hardship, but thought he could get a new brick walk.

Ald. Kennedy brought up the matter of the walk on East street east of the Iron-monger building and moved the attorney be required to prepare an ordinance on the subject.

Ald. Vaught suggested all the aldermen look into the matter of walks in their wards and bring in an ordinance covering all.

The mayor agreed and said it should be done.

Ald. Kennedy called attention to the bad walk along the Andras property on South East street. It should have been done under the care of the engineer.

Ald. Doolin said the plank walks should have attention and their use discouraged and old ones be replaced with brick. There was quite a string of it on one street in his ward which most of the people wanted to replace with brick, but three property owners held out.

As the gentleman was talking there was from the mayor and aldermen a chorus of "Amens," "That's right," "Now you're talking," and so on.

Ald. Vaught said if people wouldn't build walks voluntarily they could be required to do so by ordinance.

Adjourned.

JUSTICE COURTS.

W. W. Duncan appeared before Squire Arenz Thursday again, charged with drunkenness and he was assessed a triple dose for such offense, being given a fine of \$12 and costs. D. W. McMillan was also drunk and paid \$3 and costs.

Richard Connors was brought into this court charged with drunkenness. He denied the allegation and asked for a trial by jury. This request was granted and a jury called. Connors said he was not drunk and in the absence of any preponderance of evidence to the contrary the jury filed out to reach a verdict and after being out for some time the first ballot showed three for drunk and three against and the nearest they could come was a vote of four to two. The jury could not agree and they were discharged.

PARTY IN THE COUNTRY.

In spite of the inclement weather nearly all the invitations to Mrs. T. C. Reynolds' company yesterday afternoon were accepted and the entertainment given at "Clear View" in honor of Mrs. Richard Reynolds, Mrs. R. R. MATHENY & LLOYD
(By Associated Press.)
Chicago, Nov. 5.—Wheat—There was a
renewal of selling pressure in December
which has characterized trading the past
few days at the start, and during the first
hour that delivery declined a point below
yesterday's closing. The market was
again decidedly bearish before the open-
ing, cables generally weak, receipts for
and weather favorable and many traders
seemed inclined to dispose of their holdings.
St. Louis sold freely early. December
contract unchanged to 1/2 cent lower at
78 3/4 c; but quickly declined to 77 3/4 c.
There was good demand for May for the
entire session and that month was compara-
tively firm and tended to support nearby
contract. Some wheat bulling on the ex-
port brought out fair buying orders from
the locals and shorts took upon and ac-
tion set in which resulted in recovery of
most of the early loss. December closed
with a loss of 1/2 cent, November advanced
3/4 cent lower. On the other hand, local
were taken.

Corn—Was active and showed some
good trade, close above yesterday's closing.
While May gained 1/2 cent, December
contract unchanged to 1/2 cent lower at
78 3/4 c; but quickly declined to 77 3/4 c.

FOR RENT—House of five rooms on
Howe St.; all in good repair.
F. M. SPRINGER.

Wanted—Good cook at 1122 West State
St.; good wages.

Wanted—A skirt and waist maker. Ap-
ply Rooms 11 and 12, opera house.

STRAYED—A red male calf about 6
months old. A reward will be paid for
its return to Leslie Switzer, five miles
south-west of city.

Oaks, Buck, and other breeds of cattle
freely and there was fair buying by the
mission houses, but the offerings were
rather light. December closed with a gain
of 1/2 cent.

For RENT—House of seven rooms, with
gas, furnace, bath, room, closet, etc., on
North Church St., possession at once.
CHAS. A. BARNES.

Lost—Horse and white shepherd dog.
Return to 1006 Grove St. and receive re-
ward.

compared with 24,600 last Thursday, and
5,400 carried over unsold last night, there
was an advance of 500 lbs. Mixed and

winter wheat at 73c. Options closed 1/2 cent
lower to 1/2 cent higher, December, 78 3/4 c;
1911 contract, 78 3/4 c.

FINANCIAL MARKET
Chicago, Nov. 5.—The persistent
bearishness of the wheat and stock markets
to day was a weight upon the whole stock
market. Repressive effect was evident at
the outset when stocks of both classes

Quite Comfortable

"Liquid comfort" is not the only good. There's solid satisfaction—real, lasting benefit in

"IDEAL" COAL

The excellence of this fuel is proved by the large number of coal users who would rather have "Ideal" than any other.

Best way to understand this is to send us an order—for a bushel at 12 cents, or a ton at \$8.00. "The proof of the pudding" is in the way the pudding is cooked. "Ideal" coal proves the pudding—every time. Makes cook cheerful. Costs but little. Wood fires will be acceptable during these damp, chilly evenings and mornings.

THE DEATH RECORD.

ASH.

Word has been received of the recent death of Mrs. Nancy Ursula Ash at Columbus, Kan., her home.

The maiden name of the deceased was Gunn and she was born near Murrayville in this county in 1849. She was married to J. W. Ash Sept. 9, 1867, and was the mother of five daughters and one son. One daughter passed away when a child and the rest of the children survive her. They are Charles E., Mrs. Nora Basham, Mrs. Minnie Cammack, Mrs. Sophia Sadler and Mrs. Minnie Shideler. There are also twelve grandchildren. The family came west in 1877 and settled near Carthage, Kan., and two years later moved to Crawford Springs. Four years were spent in Girard, Kan., one near Beulah, two years near Baxter Springs, six years at Columbus, Kan., several at Los Angeles, Cal., and some at Colorado Springs, Colo. Six brothers and sisters have preceded her to the other world and four remain. She was at the home of her daughter, Mrs. Minnie Cammack, at the time of her death. For eighteen months she had been a sufferer and for the last six months a great one, but all was borne with Christian resignation to the will of God and with great fortitude. For forty years she had been a devoted member of the Methodist church and was a true Christian. She prayed earnestly for her loved ones and desired above all that they might meet her in the better land, to which she was going to meet those who had preceded her and to greet above all Him whom not having seen she had loved for so many years.

The funeral was conducted from the home of her daughter, Mrs. Cammack, by the Eastern Star, of which she was a member in good standing and in addition all her living children were present and several of her grandchildren with other friends. Many others also testified to the great esteem in which she was held by all who knew her and truly she possessed that most desirable of all possessions, a good name. Her friends in this vicinity and elsewhere will mourn a truly good woman, a faithful friend, a devoted wife and mother and an earnest Christian.

RYAN.

Mrs. John Ryan passed from earth Thursday morning at 10 o'clock after a month's illness. She was a great sufferer and bore it all with Christian fortitude becoming the lovely character that was ever exemplified in her life. Mrs. Ryan was a woman highly respected in the community where she resided and was a devoted member of the Catholic church and was known for her deeds of mercy and kind ministrations.

Decedent was fifty-two years of age and was born in Morgan county, where she resided all her life. She is survived by her husband and seven children, John, Carl and Lillian at home, Mrs. Agnes Doolin, of Sangamon county, Mrs. Kate Gorman, of Litchfield, Mrs. Mary Darley and Mrs. Lena Baker, of this county. She also has five brothers living, Matthew, Arthur, Patrick, Thomas and John and one sister, Miss Kate Harmon, all residents of this county.

The funeral will be held at the Church of the Sacred Heart in Franklin Saturday morning at 9 o'clock.

THE AGE OF ANN.

T. J. Davidson, of Reddick, Fla., who has been a reader of the Journal for twenty-five years, has sent in the following answer to the question of the age of Ann:

"If Mary is twice as old as Ann was, Ann was 12 years old. The difference in their ages equals half the difference between 12 and 24 or 6. Then Mary was 18 when Ann was 12. Then in six years Ann will be 18 and Mary 24 years old. Therefore Ann is 18 years old now."

PROBATE COURT.

Estate of Henry Mills Muller, deceased. Inventory approved. Appraisement bill approved.

FUNERALS.

PLATT.

The funeral of Mrs. Alexander Platt was held Thursday afternoon at the residence on Routt street, there being a very large gathering of sorrowing friends and relatives. Sacred music for the occasion was supplied by Miss Alsie Goodrick, Miss Inez Huckleby, Messrs. T. H. Curtis and Wilber Allen. Dr. Harker read several scriptural passages. Rev. A. L. T. Ewert was in charge of the service and took for his text, Phil. 3:21, "Who shall fashion anew the body of our humiliation, that it may be conformed to the body of his glory." He preached an impressive sermon. A few thoughts are given: "Paul was truly inspired. No man could have spoken as did he without special divine aid. In our longing for knowledge with reference to death and eternity where can we attain so clear a view as from the words of Paul? In our text what a revelation concerning the resurrection—the thought of self-consciousness is the one great fact of life. It is back of the expression of our individuality. In the midst of associations we are conscious of self. We may change. We do change, but not in the consciousness of our personal life. This is the keynote of our being. We are more than body. We shall continue. The body shall be changed. If in Christ then shall we have hope in death. We shall have a new body conformed to the body of His glory. This glorified body is to take the place of the earthly tabernacle left behind. In this future body it is not essential to have the same atoms we have now. Even here we change constantly and always. The essential is to have the Christ life, for it is life that fashions and gives form. Even here we see the heart and soul life expressed open the face. If the divine spirit can have the right of way in the life we have then the hope of our text may be ours, but not otherwise. There is little hope for the one who rejects the spiritual life. The profit of the Christian life is in this that we are now preparing for the future. We are in the process of creation as to our future being. The Christian life has as its ideal the highest type and must conform thereto. This profit is never more clearly seen than at the death of a devout Christian. Here you find first a happy and blessed retrospection. It is a joy to realize that years of service were given to this cause. No regrets for expenditure and time devoted.

"Second introspection. Looking within, the Christian says: 'By the grace of God I am what I am.' No other power adequate to do the like or same work. A work of elimination—eradicating the evil and undesirable, producing a spirit of love and goodness. This in its essence is the life that is to go along the years of eternity. Oh! who at death would have less.

Third prospect. To be hopeless at death is to be in abject desolation. How there is need for a clear outlook. The past is gone. The future opens before. What have we to hope for? The Christian is calm and expectant. From the deeper recesses of the soul comes the assurance—Henceforth there is laid up for me a crown of righteousness. This was the hope of our departed friend. She had the prospect for character and heaven. Both had there beginning long ago."

Mrs. Alexander Platt was born in Jacksonville in year 1840 on the 26th day of July. From her girlhood days she evidenced a decided leaning toward the religious life, and early identified herself with the church of Jesus Christ, joining Centenary when it was still the east charge. She was always a practical Christian. Hers was not the emotional type of religious experience and yet she felt deeply the joys of her belief and spiritual life. She was ever interested in the success of the church and did much work relative thereto. She was the first president of the Ladies' Aid society of the church and served in that capacity quite a number of years. The church was as much a part of her life as any other branch of association and interest. The fact of her never having a word about what she would wear at her funeral was a proof of her true faith.

of the church or whether she would continue. With her as with Paul the words, "For to me to live is Christ," were the expression of a life. Sister Platt did not profess to be perfect, nor did she think herself as the peer of all others. Not at all. She only felt her desire going out in the Master's cause with a great longing. Those who knew her best loved her most. She was a modest Christian. She did not assume authority. She did not boast of her attainment, but longed to be faithful and serviceable. At the approach of death she was perfectly calm and resigned. I called on her Sunday afternoon and found her faith bright, and her trust strong. She "knew in whom she had believed." Death did not find her unprepared but ready. Her last words were from the Bible—"Surely goodness and mercy hath followed me all the days of my life and I shall in the house of the Lord forever." Her life had been in constant fellowship with Bible teaching. Her entire life had been an assimilation of spiritual truths and blessed associations. Heaven to her will be very real and natural because her very heart had an affinity for heavenly associations. Nothing less could satisfy her. Christ was very precious to her. She had spent the summer as usual at Lake Bluff hoping again to rally and regain her health, but alas! instead thereof she became worse and was brought home exceedingly sick. She was immediately taken to the hospital, where the best care was given under the direction of skilled physicians, but all to no avail. Her end came peacefully and calmly on last Monday night at 9:50 o'clock. She leaves a husband, Mr. Alexander Platt, two brothers, T. H. and D. M. Rapp, and one sister, Mrs. Charles Glossop. Her place will be difficult to fill. May her mantle fall on some one who in the deeper meaning of life aspires to immortal worth and honor. We would not say good night to our departed sister, but in some sweeter clime bid her good morning. We would not say all is lost, but all is won. And surely the bereaved husband can say with Newman:

"So long thy power hath blest me, sure it still

Will lead me on,
O'er moor and fen, o'er crag and torrent,

Till the night is gone,
And with the morn' those angel faces smile,

Which I have loved long since, and lost awhile!"

From the house the cortege went to Diamond Grove cemetery, where the grave was hidden beneath a bank of beautiful flowers. Mrs. M. H. Goodrick, Mrs. Frank Thomas, Miss Bess Mathers and Miss Mollie Cully were in charge of the flowers. The bearers were Messrs. S. C. Brockman, W. D. Mathers, Thomas Bourn, T. J. Bronson, W. C. Green and A. R. Gregory.

WILLIAMS.

The funeral of Miss Ella Williams was conducted from the Sunday school room of the First Christian church Thursday afternoon at 2 o'clock, the services being in charge of Rev. E. M. Harlis. The flowers were taken care of by Misses Nellie Wilson and Martha Weldy. The bearers were Joshua Morgan, Sylvester Arbuckle, Marshal Brown, August Taylor, James Mack and Sylvester Briers. Interment was in Jacksonville cemetery.

ART ASSOCIATION.

The Art association held a meeting last night at the home of Dr. and Mrs. T. J. Pitner with an unusually large attendance. According to custom it being the first meeting of the autumn session most of the time was occupied with reminiscences of travel. Among those who spoke were Mrs. Gates Strawn, Miss Stella Cole, Mrs. G. W. Brown, Miss Marion Fairbank, Miss Agnes Chambers and W. A. Hoblit. Mrs. Brown and Miss Chambers both exhibited a number of excellent pictures. Miss Katherine Cole read an excellent paper on art.

The society very gladly accepted the invitation of the library board to meet at the library at the time of the exhibits this winter. The December exhibit will be Holbein's collection.

PLEASANTLY SURPRISED.

Last evening at the home of Mr. and Mrs. Frank Leeder, 1003 East Lafayette avenue, a very pleasant surprise party was tendered Mr. and Mrs. Sloan in honor of their thirteen birthday anniversary. A very pleasant time was enjoyed by all present. The host and hostess received several presents, one a beautiful set of silver tableware. Cards furnished enjoyment during the evening and refreshments were served at 11 o'clock. Those present were Mr. and Mrs. John Shields, Mr. and Mrs. T. Keating and daughter Agnes, Mr. and Mrs. John Hagerty and four children, Mrs. Robert Hagerty and family, Mrs. Williams, Mr. and Mrs. L. Kaule, Miss Anna Boylan, Miss Alice Brooks, Mrs. Clancy and daughter Ellen, Mr. and Mrs. Terrance Sloan and children and Mr. and Mrs. Leeder.

For the first time since 1869, the postoffice department, with the issuance of the new series of stamps in preparation will make use of the American flag in one of the designs. This will be a part of the two cent stamp, which by the way, will bear little resemblance to the one now current.
